

ELDORA

Weight: 350 lbs.
Draft: 3 1/2"
Length: 16' 4"
Beam: 69"
Power: Yamaha 25
Tiller (Electric start)

A return to our roots, the Eldora is a technical “micro-skiff” stripped to its purest form. A light, pure poling machine, that still maintains the yacht-level build quality and sheer toughness that sets Hell’s Bay skiff apart, at a level of investment that makes joining the Hell’s Bay family supremely accessible. A silent, effortless poling machine, the Eldora will take you places that can’t be found on most charts.
